

# HER

Wine Collection

## ONE OF HER KIND STORY

A group of black women, all working in the Cape wine industry, realised that they could combine their skillset to create a unique proposition: wine grown, made, marketed and distributed by them and only by them.

They each have a story to tell: Winemaker and General Manager Praisie Dlamini hails from KwaZulu-Natal but studied winemaking in the Cape. She has been working in the wine industry ever since. All of the team have stories of triumph. Each of them, with grit and determination, grabbed the opportunities presented, stepped out of the confinement of their circumstances, and worked their way up in the business world.

## ONE OF HER KIND WINES

HER wines are made for people who, like us, are filled with optimism and are determinedly chasing their dreams.

The bold colours and clean lines of the label speak to the confidence of a new generation of go-getter women, while the traditional African motif reminds us of our proud heritage, the x design radiating the strength of infinite possibility.

Taste HER wines and you will taste courage and joyful strength. And if you ask Praisie, she'll tell you that the HER wines' flavours evolve from a series of little dances that her heart does when all of the parts start blending together beautifully.

## SAUVIGNON BLANC 2022

**Origin:** Greater Cape, South Africa.

**Vineyard:** Harvest was late due to cold weather and rain, though the development of flavours happened smoothly because of the slow ripening of the 20-year-old vineyard in Worcester, and some young parcels in the Wellington region, combining to produce an exceptional Sauvignon Blanc.

**Winemaking:** To preserve the aromas, the cool grapes were delivered early in the morning, then vinified reductively to prevent excessive oxidation of juice after crushing. Yeast was then added to complete alcoholic fermentation and the wine from the various regions was left on the lees for 6 months to develop further complexity and structure, before being blended together.

**Varietal:** Sauvignon Blanc

**Analysis:** Alc 12.64%

**Colour:** Pale green

R/ Sugar: 5g/l

TA 5.8g/l

pH 3.40

**Tasting Notes:** This full flavoured wine is bursting with juicy granadilla and grapefruit flavours with hints of green apple and freshly cut grass with a crisp, zesty finish on the palate.

**Food:** Enjoyable with crunchy salads, grilled chicken or fresh seafood, a fitting summer wine.

**Ageing Potential:** To be enjoyed 1-3 years from the year of vintage.
